Specification of Particular Application

Specification of Particular Application is an amplification of the general specifications and contains provisions in respect of items not covered by or at variance with the general specifications.

Where there is any ambiguity or discrepancy between the Specification of Particular Application and general specifications, the requirements of Specification of Particular Application shall prevail.

SECTION 1 - GENERAL

1.1. The Site

(a) Working Space

The Employer will be responsible for making land available for the works as shown in the drawings. All the works are located along the canals banks. The working space available to the Contractor is limited. The Contractor shall carry out his work within the specified space.

If the Contractor wishes to work or have access outside the provided space, then the Contractor shall be responsible for obtaining the necessary consent of the relevant owners, occupants or public authority of the land for such purpose and he shall confirm in writing to the Project Manager that he has obtained this consent before entering such land. The Contractor shall pay all costs, expenses, compensation and other disbursements incurred in the occupation of any additional working space at his own cost. The Employer shall not in any way be responsible for the consent or rejection from any relevant party in this respect.

For all other lands required in connection with the temporary works such as for site huts, storage yards, the Contractor shall make his own arrangement with the owners of the land and pay all compensation and loyalties in this connection.

The Contractor shall use the site only for the purpose of the construction works and needs related to said construction works. The Contractor shall not use site for any other private purposes.

The Contractor shall confine all the works, plants, labour, materials and construction activities within the site.

1.2. Programme of the Work

A detailed programme in the form of a bar chart indicating the critical path of activities shall he produced by the Contractor as set out in the Conditions of Contract. The contractor shall update the programme, at intervals set out in the Conditions of Contract or when instructed by the Project Manager, during the course of the contract.

1.3. Safety arrangement

The Contractor shall comply with all applicable occupational health and safety regulations and shall provide suitable personal protective equipment (PPE) to all personnel engaged in the Works.

The Contractor shall provide and maintain adequate warning signs, barricades, lights, and other safety measures necessary for the protection of workers, canal users, adjacent properties, and the general public throughout the Contract period, only works relevant to contractor's work.

1.4. Road and Site to be Kept Clean

The Contractor shall take great care and all reasonable precautions to ensure that roads and thoroughfares used by him either for the construction of the works or for the transport of plant, equipment, labour and materials.

1.5. Night Work

The Contractor shall not carry out work outside normal working hours without the prior approval of the Project Manager, except in cases of emergency. Where night work is approved, the Contractor shall provide adequate lighting and supervision and shall take all necessary precautions to ensure the safety of workers and the public.

1.6. Drawings

As-Built Drawings

The Contractor shall prepare 3 copies of each as-built drawings. These drawings could be prepared from the Construction Drawings by incorporating any authorized changes carried out during casting of precast sections.

1.7. Progress Report

The Contractor shall provide progress information as and when requested by the Project Manager and shall attend progress review meetings when required.

The Contractor shall promptly notify the Project Manager of any event that may affect the progress, quality, or completion of the Works.

1.8. Progress Meetings

A regular meeting between the Project Manager and the Contractor will be held once a month on a prearranged date and time, agreed by both parties. The purpose of this meeting is to discuss the progress of work, action proposed to catch up with delays, difficulties or technical problems in hand, compliance with quality standards, variations of work and decisions to be taken regarding any unforeseen issues that may come up.

The Employer's representatives may attend such meetings or hold separate meetings whenever necessary.

1.9. First-Aid Facilities

(a) Description

The Contractor shall provide and maintain adequate first aid facilities at all work locations throughout the Contract period. A fully stocked first aid box shall be available at each active work site and shall be maintained in good condition at all times. The Contractor shall nominate a suitably trained person responsible for administering first aid and maintaining records of accidents and injuries occurring on site. The Contractor shall make arrangements for the prompt transport of injured personnel to the nearest Government or private hospital whenever required. The Contractor shall comply with all applicable occupational health and safety regulations and shall take all necessary precautions for the safety of workmen and the public.
